How about postponing the Smurfit portion of the briefing since it isn't time-critical?

So, Shaun moved this briefing to 5/19, due to the OECA visit – unfortunately, Amelia is not available then (she is on her Iceland trip), I doubt you can do much about this, but just thought I'd check to see if you thought there was any way to get this back on the 12<sup>th</sup>. If not, we understand and will go forward accordingly, but hate to have the briefing without one of the key team members - ?
